FOCUS SPACE

Create distraction-free environments for deep work and video calls in the AI era.

Deep Work and Efficient Communication Hub in the AI Era

In the AI driven work mode, the collaboration between humans and machines is becoming increasingly close, and deep thinking and clear communication have become more important than ever before.

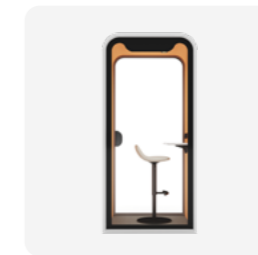

Focus Space is born for this purpose – it not only isolates noise and interference, but also provides an ideal environment for video conferencing, private conversations, and immersive creation. Here, every focus can be transformed into productivity, and every communication can accurately reach the goal. Ofiexperts' dedicated spatial solutions enable businesses to maintain a stable and efficient creative engine amidst the changing pace of work.

HYBRID WORK

Redefine the multidimensional experience of hybrid office.

A new office ecosystem that connects people, space, and AI

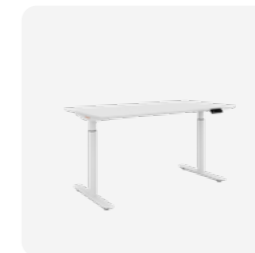

Hybrid work is no longer a temporary choice during the pandemic, but a core strategy for enterprises in the AI era to enhance resilience and efficiency. It breaks the binary mode of "all in the office" or "all remote", integrating the flexibility of online collaboration with the realism of offline space, allowing teams to seamlessly collaborate at different locations and times. In Ofiexperts' office space solution, hybrid office is the underlying logic that runs through Focus, Collaboration, and Social - we create not just furniture, but a work ecosystem that can connect people, space, and AI at any time, allowing enterprises to maintain efficiency, innovation, and warmth no matter when and where.

Thin PRO

Based on our commitment to continuous product improvement and innovation, we present the new-generation Thin Pro. This upgrade further refines the overall aesthetic while enhancing both the mesh upholstery and seat cushion materials, offering users a renewed visual impression and an improved seating experience. Notably, the introduction of 3D-woven fabric provides a more structured and supportive sitting feel, while significantly enhancing breathability and long-term comfort.

MC15-A

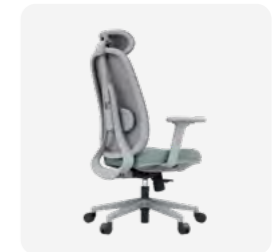

MC15-B

Indiana

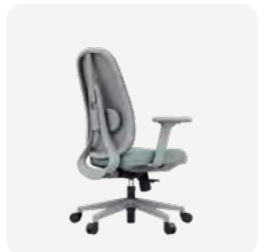

Inspired by the structural aesthetics of Native American totem poles, the layered backrest design embodies symbolic strength and architectural balance while delivering progressive, full-spine support from lumbar to shoulders.

Thoughtfully engineered contours provide precise alignment and adaptive comfort at every contact point, seamlessly combining sculptural presence with ergonomic intelligence to bring stability, performance, and refined elegance to the modern workspace.

MC16-A

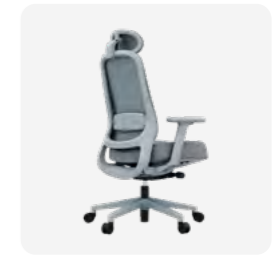

MC16-B

Flexura

Inspired by the idea of flexibility in motion, FLEXURA is designed to adapt effortlessly to every workstyle.

With its quick-adjust ergonomic mechanism, synchronized reclining armrests, enlarged back support, and extra-thick comfort seat, it delivers personalized comfort throughout the day. The new-generation breathable mesh adds both durability and refined texture — bringing performance, support, and modern elegance to any workspace.

COLLABORATION SPACE

Empower teams to collaborate, create, and decide faster with flexible workspace solutions.

Flexible co creation decision accelerator

AI makes information within reach, but the true value still comes from the team's intelligent collision and quick decision-making. Collaboration Space creates a co creation space that can be adjusted in real-time according to project needs, with modular conference tables, movable whiteboards, and flexible chairs. Whether it's brainstorming, cross departmental discussions, or agile training, ideas can quickly take shape and decisions can be efficiently implemented here. Ofiexperts collaborative space allows teams to maintain synchronization and creativity in complex tasks.

Social & Lounge Space

Empower teams to collaborate, create, and decide faster with flexible workspace solutions.

The relationship field between stimulating creativity and connection

In the era where AI takes on more execution tasks, enterprises are more reliant on human creativity and connections than ever before. The Social&Lounge Space features comfortable sofas, leisure tables, and warm lighting, creating an informal communication space where chance encounters become the starting point of inspiration and moments of rest become catalysts for relationships. Not only does it enhance the employee experience here, but it also subtly strengthens cultural stickiness and innovation drive. Ofiexperts' social space has transformed the office environment from a 'workplace' to a 'creative community'.

Ofiexperts' full range of standard products come with a five-year warranty

This product has passed the international BIFMA quality standard testing

Dear Valued Customers,

Greetings from Ofiexperts — a professional furniture supplier with years of industry expertise. We are committed to delivering high-quality, safe, and durable furniture solutions tailored to your needs, always guided by our core values of "quality as the foundation and service as the priority."

When it comes to product quality assurance, we take pride in our industry-leading compliance capabilities: all our furniture products undergo rigorous BIFMA testing and certification (an authoritative European safety certification system for furniture, covering comprehensive evaluations such as structural integrity, environmental standards, and long-term durability). From raw material selection to production process control, every step adheres to international high standards, ensuring that each piece of furniture meets the safety regulations of global mainstream markets. This allows you to purchase with confidence and use with peace of mind.

What truly sets us apart is our comprehensive five-year warranty on all products (calculated from the date of delivery). This warranty covers material defects, manufacturing flaws, and functional issues arising under normal use. Within the warranty period, no matter what quality concerns you encounter, our dedicated after-sales team will respond promptly, providing free repairs, component replacements, or technical guidance. We honor our promise of "long-term responsibility with every partnership" through tangible actions.

Whether you're outfitting commercial spaces, renovating homes, or seeking customized solutions, we back our BIFMA-certified quality and five-year warranty with unwavering commitment. Choosing us means more than acquiring furniture — it's choosing a measurable, guaranteed partnership built on trust for the long term.

We look forward to collaborating with you to create high-quality living and working spaces.

Warm regards
